Disclaimer: This map is generated from VicForests and Victorian Government data and may be of assistance to you. However, VicForests does not guarantee that the publication is without flaw of any kind and therefore disclaims all liability for error, loss or damage which may arise from reliance upon it.

Notes:

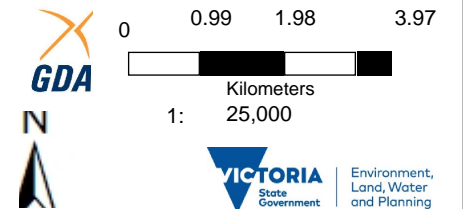

Coupe boundaries are extracted from spatial data of Timber Release Plan (TRP) which is created at a scale of 1:25,000. Any interpretations of coupe boundaries at a scale that is larger than 1:25,000 may not be correct.

Species detections associated with a coupe and recorded with a particular CoupeID, may have been found outside of the coupe boundaries. As such, VicForests may not be required to exclude timber harvesting operations consistent with the Code of Practice for Timber Production 2014 and the Management Standards and Procedures for these detections.
